Doorway Alert FAQ

What are the black and white stripes for?

ADFORS Doorway Alert screen features a highly visible pattern of black (charcoal) and white stripes that, when installed in doorways, brings attention to it for increased safety by helping to prevent accidental run-ins/walk-throughs.

How far apart are the stripes in the screen?

The screen features a pattern of 2" charcoal and 2" white alternating strips that run vertically.

What does Ortho-Phthalate Free mean?

ADFORS Doorway Alert screen is ortho-phthalate free and does not contain any substance covered under California Prop 65. ADFORS screen still maintains the same great aesthetics, properties and processibility. Doorway Alert screen is also GREENGUARD Gold certified which certifies that the product has low chemical emissions.

Doorway Alert Screen is ideal for increased safety.

Doorway Alert screen is a specialty fiberglass screen which features a highly visible pattern to prevent accidental walk-throughs and damage. Designed with 2" charcoal and white stripes, this screen is ideal for use in patio doors to increase safety.

Features and benefits of Doorway Alert Screen:

- Visible pattern prevents others from running into or walking through screen doors
- Can help to provide a safer environment and reduced damage
- Easy to install and the standard fiberglass construction allows for good airflow

Doorway Alert screen is available in DIY pre-cut and 100' contractor rolls. Each pre-cut roll comes with simple step-by-step instructions for easy installation. ADFORS .140" spline is recommended for the best fit in a standard frame.
